Spring Time is just around the corner!

With the pretty flowers also come allergens and molds. For many pets, allergies can cause discomfort with symptoms including red, irritated, itchy skin, eyes or ears. Allergies in pets are very common.

Symptoms should be addressed with your veterinarian to rule out other causes and choose the most cost- and health-effective treatment. We can offer many options to make your pet more comfortable.

Be sure to contact us at the pet hospital if your pet experiences any of these symptoms. This is also the ideal time to start your flea and tick prevention if your pet is not already on it year round.

Forever Friends Employee Biography

Name: Lucy Anne
Lowe
Job Title:
Receptionist

Time at Forever Friends: I have been with Forever Friends since the spring of 1979.

Pets & Family: I have been married to William Lowe for 44 yrs and have two sons, Mike and Jeff who are 43 and 41 years young. I share my home with 2 dogs, Salsa Marie, a 4 ½ yr old Chihuahua mix, and Shorty Chan, a 10 month old Pekinese. All of my pets have been rescues; some damaged, some not so damaged, but all equally important and loved.

Favorite part about my job: Having the honorable opportunity to meet our clients and their much loved pets. The bond with clients is immediate and forever.

Interesting Fact: I have been known to stay on the phone with a wrong number talking for 25 minutes, business of course. And I never leave questions or concerns unaddressed.

Hobbies: Getting my flower beds the way I dream them to be! I am always working on them.
